

I'll be doing [Thoth](#) here, the Egyptian God of writing, communication etc. He was one of their major Gods and very important.

Thoth is Mercurial (duh) and corresponds to 28° in Gemini, which stands for confidence. This means that engagement with him depends on you, as an operator; lose confidence in yourself and He'll tone it down a bit too. He can help you with all things regarding communication, e.g. writing, math etc. All things attributed to Him:

"The Egyptians credited him as the author of all works of science, religion, philosophy, and magic. The Greeks further declared him the inventor of astronomy, astrology, the science of numbers, mathematics, geometry, land surveying, medicine, botany, theology, civilized government, the alphabet, reading, writing, and oratory. They further claimed he was the true author of every work of every branch of knowledge, human and divine".

When Thoth showed himself just now, He told me that He does not like to be disturbed by others, unless they're really serious in working with Him. Appearance is typical too, half man-half Ibis, or half man- half baboon. The latter is second though.
