

I'll be covering the entity Asoth today; there is little known information on her out there. The only real thing that can be said about her is that she is one of the spirits that the occult order [ONA](#) works with. The other one or two sources claim that she's Venusian which is dead wrong.

Asoth is Saturnian (10° in Aquarius-innovator) and specializes in Karma, clairvoyance & overall progress towards a magician wanting to work with her; She can offer financial aid and good fortune, but at the cost of unpleasant changes. She has told me that she's an egregore and therefore isn't a demon or angel or doesn't derive from any pagan God. (I have not confirmed her statement)

She appears as a [harpy-looking](#) creature, albeit very realistic and more serious-looking.
