

I'll be covering the grimoire "[The Sixth and Seventh Books of Moses](#)" in this article; it is in short, a traditional grimoire or workbook that gives instructions on how to summon angelic beings, after reciting orations and making use of seals etc.

I have dealt with one of the spirits mentioned herein, called Anoch, and He is Mercurial (19° in Gemini- power) and offers abundance on a daily basis and financial prosperity; the only drawback is that He will cause you as an operator to overreach oneself in the aforementioned, albeit slightly. [Here](#) a copy of the book.

The Sixth and Seventh Books of Moses does have potency & potential, that is clear, and the Angels mentioned in it have much to offer that is practical.
