

[The practical Kabbalah](#) is a kabbalistic grimoire that goes deep & extensively into the Kabbalah and the Tree of Life; it covers things like the pathways in between the sephirah and so on. I like this book, and those that love the Kabbalah will love it.

I'm here to discuss 2 Angels mentioned in this book, and their skills; Elemiah & Lehalel, both of which are Seraphim.

Elemiah is Martian (Scorpio, 15° - unknown) and specializes in Clairvoyance (e.g. Necromancy) and related. Appearance is that of an angel in black, with fiery wings, stern and strict in etiquette.

Lehalel is Saturnian (Aquarius, 26° - demonstration) and pretty much the opposite of Elemiah, being warm & sympathetic; He excels in overall life success and can help one get rid of negative karma. Appears as an angel in white.
