

I'll be discussing elemental spirits and what they have to offer, attributes etc; long story short, they have a LOT to offer in things relating to their perspective spheres, and they can do so in an original and inventive way, really exceptional skill can be showcased. Drawback is that that is the ONLY thing they have to offer, so don't even bother asking them anything else- nada, zip, nothing.

There are 4 elements, and below the names of corresponding spirits:

1. **Fire- Salamanders**
2. **Earth- Gnomes**
3. **Air- Sylphs**
4. **Water- Undines**

Salamanders appear as fiery men, Gnomes as just that: Gnomes, Sylphs as Airy, long haired men, Undines as mermaids/mermen or watery people.

Per definition, elemental spirits are nothing more than spirits that inhabit the astral equivalents of the elements; let it be noted that there is a 5th element, spirit and that the spirits residing in it are transparent in appearance and more quiet & withdrawn, nevertheless willing to help.
