

This article will be about me learning a new language with Belial's help; it had been the case I saw it necessary for personal reasons to learn a new language and Belial was magnificent despite me only learning for a brief while & putting learning this new language on hold.

It was about a month and a half at most (I think) that I was busy and He guided me through the process; it should be noted that this language is a really hard one to learn for the average person, so NOT a mainstream one like English, Spanish, French etc.

I home schooled myself by looking it up online, using Google Translate etc; He gave me tips and made the information easy to absorb to the point that I made 3 to 4 times the progress I'd make regularly, without His help. For example, if it'd take me a year without Him- with Him, it'd be a few months...

This is to hint at Belial's skill but not a surprise, since He's Gemini (Mercury/Sun)

Thanks for the 1000th time, "B".

PS. The reason for me putting this project on hold, is because [Chi Rho](#) will take over.
